AUTHOR AND TITLE INDEX TO VOLUME 96

In this Index in alphabetical order are the names of the authors of all articles and the senior presenters of cases in Society Transactions, followed by the title of the article or case presented and the page numbers on which their articles or cases begin. The asterisk (*) preceding the page number indicates an original article, case report, review article, special article, or scientific exhibit.

For Subject Index see page [10].

SUBJECT INDEX TO VOLUME 96

This Index contains an alphabetical list of significant subjects presented in this volume. Unclassified abstracts are indexed by subject, with the index entry followed by "(abst.)." Books reviewed are listed alphabetically by title under the heading "Books." Society Transactions are listed under that heading, with individual papers indexed under appropriate headings.

American Board of Pediatrics, Inc.
- specialists certified, 110, 247, 413

American Pediatric Society
- John Howland Medal and Award: presentation to Dr. Irvine McQuarrie [Hansen], 559: acceptance (563)
- 68th Annual Meeting: papers presented, 570-635

Amino acids
- abnormal metabolism in case suggesting autism [Sutton & Read], °23

Anemia
- hemolytic, drug-induced: hereditary enzymatic defects [Gross et al.], 436
- iron-deficiency, of infancy: dietary and storage factors [Dawson & Desforges], °169
- pernicious, juvenile [Howell], 454
- sickle-cell: hepatic function in [Ferguson & Scott], 504
- sickle-cell, in infancy [Leikin & McCoo], °51
- sickle-cell: urine concentration in children with [Whitten & Young], 446

Aorta
- coarctation: necrotizing arteritis of small intestine following surgical therapy [Downing et al.], °711

Autoradiography
- iodinated compounds in thyroid disturbances observed in autoradiograms [Reilly et al.], 630

Ascaris lumbricoides
- ileus in children due to [abst.], 751

Ascites
- fetal [Silver et al.], °268

Ataxia
- cerebellar, acute, of undetermined origin in childhood [Walcher & Ross], °278

B

Bacitracin
- in treatment of overwhelming staphylococcal infections [Perry et al.], 573

Bilirubinemia
- control [Danoff et al.], 440

Blood
- calcium: hypercalcemia, idiopathic [abst.], 90
- calcium: hypercalcemia, idiopathic, of infancy [Snyder], °376
- calcium: hypercalcemia, idiopathic, and "vitamin D activity" [Fellers & Schwartz], 476

Bones
- sodium content: effect of acute changes in extracellular fluid composition [Forbes & Tobin], 583
